Freedom of design
with seemingly
endless application
possibilities

Caesarstone quartz – beauty and strength combined

Quartz is more than beautiful. It is also one of nature's strongest minerals. Impervious to stains, scratches and cracks, quartz is highly heat and cold resistant. Caesarstone surfaces combine form and function, allowing for the most diverse, durable and practical applications. Our surfaces retain the cool, tactile qualities of natural stone, while offering design freedom with almost unlimited application possibilities.

Since 1987 Caesarstone has been pioneering with quartz, developing thousands of designs and launching hundreds of successful new products, with more in the pipeline each and every year.

performance

Collaborating with leading designers

World-renowned designers and architects choose to partner with Caesarstone to set new design trends. While our collaborations have garnered many design awards, they have a much more important function for us. Design collaborations push us to push boundaries. We seek to innovate. Our ambition is to consistently set new standards for your interiors - to pioneer new styles, new collections and new textures that give our customers the latest, most cutting edge designs.

We promise you a fast, efficient and professional customer service and support

Low maintenance decor for modern living

Caesarstone surfaces require minimal maintenance to keep them looking like new. Just gentle cleaning with soap & water or a mild detergent ensures ease of care for long-lasting luster.

Quality & Service

As passionate as we are about design, we are equally committed to providing the best quality and service. Caesarstone has received worldwide recognition for our commitment to quality, safety and environmental standards. Each and every one of our surfaces is carefully inspected to ensure it meets the highest level of international quality standards.

Our surfaces come with a comprehensive warranty and professional customer service and support to our customers in over 50 countries worldwide.
